THE MEMBER JOURNEY

Bring The Career Center Into The Member Journey.

Members discover relevant career opportunities inside the community they already use. The handoff to your career center stays simple, connected, and useful.

01

Connect

Sync standard member fields from Higher Logic. Map association-specific fields where needed.

02

Personalize

Match eligible job seekers with relevant opportunities. Optional backfill broadens available jobs.

03

Engage

Place jobs in the Activity Feed. Single Sign-On can provide direct career center access.

FLEXIBLE BY DESIGN

Fit The Experience To Your Ecosystem.

Launch Higher Logic Thrive Jobs with or without Higher Logic Single Sign-On. Configure access, profile connections, and recommendations around the member journey your association wants to create.

CONNECTED VALUE

One Connected Experience. Three Sources Of Value.

Career opportunity becomes part of the member experience, while employers reach a focused professional audience and your association strengthens its mission.

Member Value

Put relevant jobs inside the community members already use. Make career support visible across every career stage.

Engagement

Connect profiles, recommendations, and career center access in one smoother member journey.

Revenue Growth

Give employers focused access to professional talent while building sustainable non-dues revenue.

IMPLEMENTATION AND PARTNERSHIP

A Clear Path From Decision To Launch.

Your association defines the experience. One coordinated team guides setup, validation, training, and launch.

01

Define Access

Confirm the member journey, stakeholders, and Single Sign-On scope.

02

Configure Data

Map profile fields, accounts, content widgets, and recommendations.

03

Validate In Staging

Test profiles, jobs, and Activity Feed content and access before launch.

04

Launch And Measure

Train your team, launch, and monitor results.

One Invested Team. Built Around Your Member Experience.
